- All images must bleed to the CYAN dashed line (0.25” bleed outside the final crop size).
- For best results, all live elements (eg. text, barcodes) should be kept 0.25” inside the trim size.
- We recommend that no straight edge borders, rules or text be placed within 0.125” (3.175 mm) of the top, bottom, or side of the front or back cover.
